TRAILER AXLES FAST AND EASY

EASY ONLINE
ORDERING

ASSEMBLED
IN THE USA

FREE & FAST
SHIPPING*

**QUALITY AXLES,
QUICK DELIVERY.**

**TRUST THE BRAND THAT MANUFACTURES OVER
3,000 SPRING & TORSION AXLES EVERY DAY.**

LIMITED 1-YEAR warranty on grease and oil seals for all axles

LIMITED 6-YEAR warranty on spring axle welds and suspension systems

LIMITED 11-YEAR warranty on torsion axle welds and suspension components

PLACE YOUR AXLE
ORDER TODAY!

*Most common utility trailer axles ship same or next business day (24-hour axle program).
Custom axles and stocking orders of four or more axles may have a longer lead time.

Connect with us      

TRAILER AXLE SOLUTIONS

Since 2005, we've been a leading axle supplier to the utility trailer parts and recreational vehicle industries. Our trailer axles are engineered and constructed with cutting-edge technology, making them among the best in terms of quality and durability.

Our state-of-the-art robotic welders ensure the highest precision on every component you buy, leaving you with peace of mind on the road ahead. Plus, we make our replacement cargo axle assemblies and components traceable, giving us optimum product visibility and serviceability for your convenience.

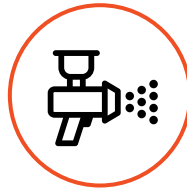

Benefits of Lippert Axles

Robotic Welding

We utilize robotic welding for consistent, fully penetrated welds every time.

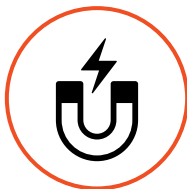

Durable Finish

Our powder-coated axle tube finish prevents premature corrosion from road salt and other chemicals.

Exceptional Quality

Our axles are QAI-certified to CSA Standard CAN3-D313-M85 for exceptional quality.

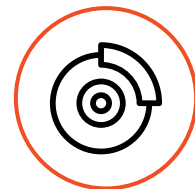

Magnet-Amp Checked

Each axle is magnet-amp checked for proper function in all wiring.

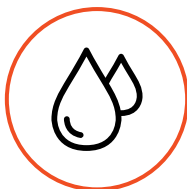

Aluminum Alloy Valcrum Caps

Aluminum alloy, upgraded Valcrum premium oil bath caps will not crack like plastic oil caps.

Multiple Brake Options

We offer standard electric, forward self-adjusting and hydraulic brakes for your replacement axle.

Waterproof Electrical Wiring Connections

Protected connections help prevent corrosion and ensure long-term performance.

Super Lube Lubrication System

This system saves time, requiring no disassembly and filling the entire bearing cavity with grease, allowing for complete submersion. This system offers better long-term protection over standard hubs.

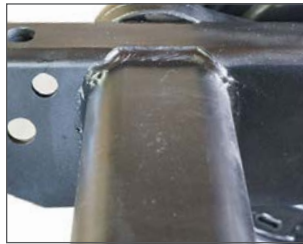

TORSION AXLES

- Requires less maintenance than spring axles
- Rubberized torsion beam and cords absorb road shock and vibrations for a quiet, smooth ride
- Available in square and diamond orientations
- Various starting angles control trailer height
- Independent wheel suspension

Diamond pattern torsion axle

Square pattern torsion axle

SPRING AXLES

- Integrated, one-piece spindle flange
- Straight or drop spindles
- Slipper or double-eye leaf spring suspension
- Standard or upgraded equalizer suspension

Feature	Torsion Axles	Spring Axles
Warranty	11-year	6-year
Axle configuration	Single, tandem	Single, tandem, triple
Axle capacity	2K - 7K (diamond) / 2K - 12K (square)	2K - 16K
Idler axles	2K - 8K	2K - 8K
CSA certification	2K - 8K	2K - 8K
Valcrum premium oil caps (included)	8K - 12K	8K - 16K
Oil bath (option)	7K - 12K	7K - 16K
Forward self-adjusting brakes (option)	3.5K - 12K	3.5K - 16K
Hutch HD suspension system (option)	--	10K - 16K
Super Lube lubrication system (option)	2K - 8K	2K - 8K

BUILD YOUR OWN AXLE

In crafting our axle assemblies, we assign part numbers that delineate the characteristics of each component. These numbers correspond to the axle capacity, beam type, hub face dimension, spring center dimension, tie plate type, spring mounting type, lubrication type, bolt pattern, leaf spring type, and pigtail type. The foundational structure of our part numbering system is outlined below.

Example Axle Number

LCI60-SB-86.5-68.5-NOSP-OS-L-65517-7226-30PT

Example Axle Number Breakdown & Definitions									
Model	Spindle and Brake	Hub Face Dimension	Spring Center Dimension	Tie Plate	Spring Mounting	Lubrication	Hub or Hub / Drum	Leaf Spring	Pigtail Type
LCI60	SB	86.5	68.5	NOSP	OS	L	65517	7226	30PT

Axle Number Breakdown, Definitions & Options

Model	
Code	Description
LCI20	2,000 lbs.
LCI35	3,500 lbs.
LCI44	4,400 lbs.
LCI52	5,200 lbs.
LCI60	6,000 lbs.
LCI70	7,000 lbs.
LCI80H (hybrid)	8,000 lbs.
LCI80	8,000 lbs.
LCI100S (short)	10,000 lbs.
LCI120	12,000 lbs.
LCI160	16,000 lbs.

Spindle and Brake	
Code	Description
Spindles	
S	Straight spindle
D	4" drop spindle
Brakes	
B	Electric drum brake
BSA	Electric drum brake, self-adjust
I	Idler hub, no brake
HUSFB	Hydraulic uni-servo drum brake, free backing
AB	Air brake
D	Hydraulic disc brake

Hub Face Dimension
Distance between wheel mounting surfaces of hubs

Spring Center Dimension	
Code	Description
NOSS	No spring seats welded
Distance between spring centers	

Tie Plate	
Code	Description
NOSP	Standard tie plate
FIXSS	Fixed spring seats, both sides (10K - 16K)
ADJSS	One fixed and one adjustable spring seat (10K - 16K)
HUTSS	HD suspension system spring seat, welded (10K - 16K)

Spring Mounting	
Code	Description
OS	Overslung, on top of axle tube
US	Underslung, underneath axle tube

Lubrication	
Code	Description
L	Super-lube
G	Standard grease
O	Oil lubrication

Hub or Hub / Drum	
Code	Bolt Pattern
440	4 on 4"
545	5 on 4-1/2"
5475	5 on 4-3/4"
550	5 on 5"
555	5 on 5-1/2"
655	6 on 5-1/2"
660	6 on 6"
86517	8 on 6-1/2", 1/2" studs
86537	8 on 6-1/2", 9/16" studs
86580-9/16	8 on 6-1/2", 9/16" stud, 8K
86580-5/8	8 on 6-1/2", 5/8" stud, 8K
865	8 on 6-1/2", 5/8" studs, 10K - 12K
8/275	8 on 275 mm, 16K

Leaf Spring
Industry number, see page 22

Pigtail Type	
Code	Description
18PT	18" pigtails
30PT	30" pigtails

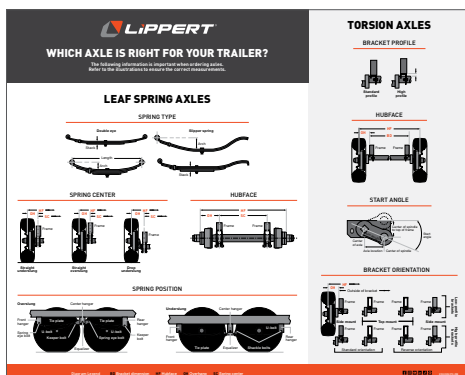

AXLE PARTS RETAIL PROGRAM

Lippert is your ultimate one-stop shop for axle parts and components. Our comprehensive offering features premium replacement parts meticulously crafted to meet the highest standards of quality and reliability. Whether you need bearings, hubs, brakes, or any other vital component, we offer exceptional performance and durability. These parts are readily available through Lippert, CURT, or one of our many distribution partners across the country.

Receive an in-store marketing package with your first qualifying purchase of premium Lippert retail packaged parts!

Header Card (4' or 8')

Counter Mat (20" x 16")

Metal Sign (29-1/2")

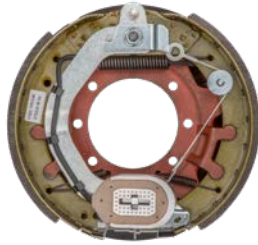

**GETTING YOU
BACK ON THE
ROAD AGAIN**

The display consists of several levels of shelving. The top level is a pegboard with 28 individual product packages hanging from it, including oil seals, grease seals, dust caps, and trailer bearing kits. Below the pegboard is a row of 12 red boxes, each labeled 'LIPPERT' and '10" BRAKE ASSEMBLY'. The next level down features three large white boxes for '10" PRE-ASSEMBLED HUB & DRUM' and two smaller red boxes for '10" BRAKE ASSEMBLY'. The following level has three large white boxes for '12" PRE-ASSEMBLED HUB & DRUM' and two smaller red boxes for '12" BRAKE ASSEMBLY'. The bottom level also features three large white boxes for '12" PRE-ASSEMBLED HUB & DRUM' and two smaller red boxes for '12" BRAKE ASSEMBLY'. Each box contains detailed product information, including part numbers, descriptions in English and Spanish, and images of the components.

From the middle point of one hole to back end of the hole across from it.

6-lug

From the middle point of two holes located directly across from each other.

8-lug

From the middle point of two holes located directly across from each other.

SHORT AXLES

The short axle is a specialized type of axle designed for trailers that need to handle tight spaces or reduced overhangs. The 10K short axle is one of the most popular versions of this design. It's capable of handling up to 10,000 lbs. of weight and can be used in both single and dual-tire configurations.

One of the standout features of the short axle is its ability to reduce unsprung mass and provide a tighter turning radius, making it ideal for applications where space is limited or where the trailer needs to stay closer to the ground. The 10K short axle can be used for heavy loads and is suitable for both single-axle and multi-axle setups.

If you need a high-quality, durable axle that is lightweight but strong, the short axle is an excellent choice, especially for trailers with specific size constraints.

Scan to explore different types of trailer axles

HYBRID AXLES

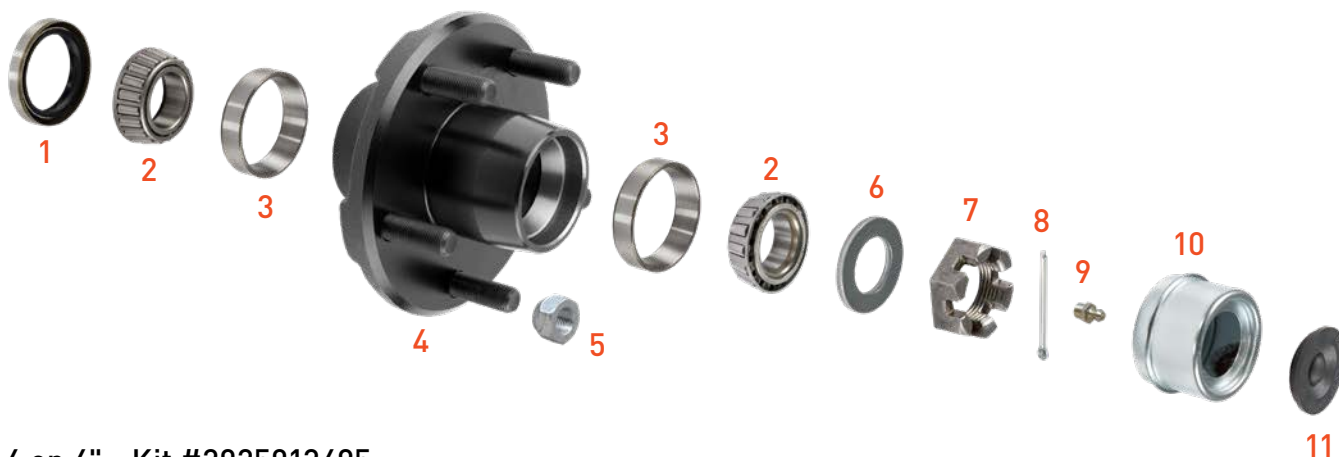

A hybrid spring axle combines elements of both traditional spring axles and modern design innovations. This type of axle aims to provide the best of both worlds: the rugged load-handling capacity of spring axles with improvements that reduce unsprung mass (the weight that isn't supported by the suspension) and increase the overall efficiency of the system. For example, a hybrid axle can allow for a lower profile and more clearance.

The 8K hybrid axle, exclusive to Lippert, is a popular example of this type of axle. It's rated for an 8,000-lb. capacity, but the drum brakes are rated for slightly less, at 7,000 lbs. This axle is perfect for applications requiring strength but with a lighter, more efficient design. Its ability to support heavier loads while reducing the unsprung mass makes it ideal for trailers that need to maneuver tighter turns and reduce wear on the tires.

The hybrid spring axle can be used in a wide range of applications, including boat trailers, car haulers, and other utility trailers. Its unique design offers an excellent balance between durability and performance.

ELECTRIC BRAKE ASSEMBLIES

Universally compatible with Dexter

- Easy, DIY installation with pre-installed studs
- Linings fully bonded to shoes for longer life and excellent braking torque
- Durable magnets ensure consistent braking power
- Shoes feature automotive-grade friction material to ensure superior stopping performance and durability
- E-coat finish on backing plates resists rust and corrosion
- Requires only an electric brake controller (sold separately) — no actuator or hydraulic lines needed
- Brakes are compatible with all standard or aftermarket brake controllers
- Included adjuster plugs protect internal components from dirt, grime, and road debris
- Certified to QAI and CSA standards, ensuring exceptional quality and performance
- SAE-N certified for adherence to California and Washington state environmental regulations
- **Contact your sales representative for bulk pallet options**

FORWARD SELF-ADJUSTING BRAKE ASSEMBLIES

Universally compatible with Dexter

- Brakes self-adjust during every forward stop, providing up to 50% shorter stopping distance
- Helps prevent premature brake lining and magnet wear for safer travel
- Self-adjustment feature ensures reliable contact between the brake shoes and drums
- Maintains brake-to-drum clearance for more consistent performance over brake's lifespan
- Easy, DIY installation with pre-installed studs
- Linings fully bonded to shoes for longer life and excellent braking torque
- Shoes feature automotive-grade friction material to ensure superior stopping performance and durability
- Requires only an electric brake controller (sold separately) — no actuator or hydraulic lines needed
- Brakes are compatible with all standard or aftermarket brake controllers
- Certified to QAI and CSA standards, ensuring exceptional quality and performance
- SAE-N certified for adherence to California and Washington state environmental regulations
- **Contact your sales representative for bulk pallet options**

DISC BRAKE ROTOR ASSEMBLIES

- Complete assembly from drum to disc brakes on one axle
- Upgrades the trailer's brakes from drum to disc for superior stopping power
- Provides smoother braking over drum brakes
- Vented design dissipates heat faster to prevent premature brake pad wear
- Durable cast-iron construction for strength and durability
- Zinc-plated finish offers superior corrosion resistance
- Hydraulic brake actuator required (sold separately)
- Includes one integral hub-rotor assembly with bearings, races, and grease seal
- One-piece hub-and-rotor assembly for easy, DIY installation (select models)
- **Contact your sales representative for bulk pallet options**

DISC BRAKE CALIPERS

- Caliper holds and protects pistons for your hydraulic disc brake
- Custom caliper bodies designed for easy install
- Self-adjusting design ensures smooth, even braking
- Rigorous end-of-line inspection and pressure testing ensure quality and performance
- Durable, cast-iron construction prevents flexing to keep braking torque consistent
- Hydraulic brake actuator rated at 1,600 psi or above (sold separately) required to activate brakes
- Universal design works with driver and passenger side brakes
- Includes disc brake pads, fittings, and mounting bolts

Single Brown Box #	Axle Capacity	Hub Bolt Pattern
2025013504	3,500 - 6,000 lbs.	5 on 4-1/2" 6 on 5-1/2"
2025013505	7,000 - 8,000 lbs.	8 on 6-1/2"
2025013506	10,000 - 16,000 lbs.	8 on 6-1/2" 8 on 275 mm

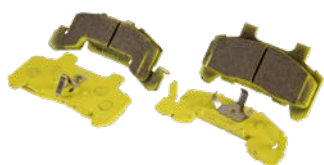

DISC BRAKE CALIPER BRACKETS

- Zinc dichromate, anti-corrosion finishes provide rust resistance for iron caliper bodies and brackets
- Durable, cast-iron construction prevents flexing to keep braking torque consistent
- Universal design works with driver and passenger side brakes
- Easy, DIY installation
- Includes one caliper mounting bracket

Single Brown Box #	Axle Capacity	Bolt Pattern	Hub Bolt Pattern
2025013499	3,500 lbs.	Four-bolt	5 on 4-1/2"
2025013500	5,200 - 6,000 lbs.	Five-bolt	6 on 5-1/2"
2025013501	7,000 lbs.	Five-bolt	8 on 6-1/2"
2025013502	8,000 lbs.	Four-bolt	8 on 6-1/2"
2025013503	10,000 - 16,000 lbs.	Seven-bolt	8 on 6-1/2" 8 on 275 mm

DISC BRAKE PADS

- Brake pads apply pressure to your rotors to slow or stop your trailer's wheels
- Ceramic brake pads provide superior performance for more consistent braking
- Produce less dust than NAO or semi-metallic models
- Chamfered to prevent squeal
- Includes four brake pads
- Easy, DIY installation

COTTER PINS

- Ensures spindle castle nut stays secure
- Cotter pin should be replaced every time the hub is disassembled

2025027790

2025027791

10-Pack #	Axle Capacity	Diameter	Length
2025027790	Up to 8,000 lbs.	1/8"	1-3/4"
2025027791	10,000 - 16,000 lbs.	1/4"	2-1/4"

GREASE ZERK

- Provides the entry point for greasing various suspension components
- Works with all Lippert Super-Lube axle spindles and suspension wet bolts

10-Pack #	For
2025027802	Wet bolt equalizers and lubricated axles

PREMIUM THREADED DUST CAPS

- Keeps dust and debris out, maintaining hub performance
- Magnetic vent plug attracts damaging metal particles
- Helps identify problems before they become critical
- Clear lens allows for visual inspection of oil level (oil caps only)
- Easy-to-access side port lets you fill or drain lubricant without removing the cap (oil caps only)
- Powder-coated aluminum construction provides durability and resistance to corrosion
- Watertight O-ring and rubber plug included for a complete seal
- Easy, threaded installation
- Includes one dust cap per brown box

STANDARD PRESS-IN DUST CAPS

- Keeps dust and debris out, maintaining hub performance
- Zinc-plated steel construction
- For use with grease lubricated systems
- Easy, drive-in installation

Shields bearings, grease, and other inner hub components from dust and contaminants

Grease cap with rubber plug allows easy access to grease zerk in axle spindle

SLIPPER LEAF SPRINGS

Universally compatible with Dexter

- Dampens road shock and vibrations, minimizing strain on the trailer
- Single-eye design allows for more weight capacity and fewer moving parts
- Leaves allow flexibility to absorb road shock, which offers a smoother, more level ride
- Pre-mounted hangers required for installation (hanger kits sold separately)
- Durable steel construction can withstand regular wear and tear
- Bushings are pre-installed into the eye-holes
- Easy, DIY installation
- Ships in durable brown box

ROAD ARMOR™ SHOCK-ABSORBING EQUALIZERS

- Offers superior suspension enhancement with 360° protection
- Provides smoother towing over conventional equalizers
- Helps minimize trailer and cargo damage caused by road shock and vibration
- Two cushioned equalizers replace cast equalizers that came standard on the trailer
- Single pivoting arm absorbs and dampens road shock from the leading or trailing spring
- Sturdy steel construction with UV and corrosion-resistant, black powder coat finish
- DIY, bolt-on installation — no drilling or welding required
- Zinc-plated fasteners offer corrosion resistance
- Suspension mounting kits sold separately

EQUA-FLEX® RUBBERIZED EQUALIZERS

- Reduces fore-and-aft trailer movement, otherwise known as chucking
- Dual-pivoting arms absorb and dampen road shock from the leading or trailing spring
- Provides smoother towing over conventional equalizers
- Cushioned equalizers replace cast equalizers that came standard on your trailer
- Sturdy steel construction with UV and corrosion-resistant, black powder coat finish
- DIY, bolt-on installation — no drilling or welding required
- Zinc-plated fasteners for corrosion resistance
- Suspension mounting kits sold separately

2024115101	5,000 - 8,000 lbs.	Triple, short	7-1/4"	5-1/2"	7-1/4"	3-5/8"	7-1/2"
2024115382	5,000 - 8,000-lbs.	Triple, long	7-1/4"	5-1/2"	7-1/4"	3-5/8"	8-3/8"

SHOCK ASSEMBLIES

- Bolt-on shock kit absorbs road shock to provide a more comfortable towing experience
- Kit comes with everything needed to attach gas shocks to an existing trailer suspension
- Single replacement shocks are also available

281281

281255

283280

283271

Part #	Includes	Fits	Compressed Length	Extended Length
281255	Two shock assemblies, four U-bolts, two shock mount assemblies, two tie plates, eight washers, hex nuts, and hex bolts	2-3/8" axles tubes	8-5/8"	13-1/2"
281281	Two shock assemblies, four U-bolts, two shock mount assemblies, two tie plates, eight washers, hex nuts, and hex bolts	3" axles tubes	8-5/8"	13-1/2"
283280	One heavy-duty yellow shock, four top plates, four rubber bushings, two nuts	All axle tube sizes	8-5/8"	13-1/2"
283271	One standard black shock, four top plates, four rubber bushings, two nuts	All axle tube sizes	7-1/2"	12"

SLIPPER SUSPENSION KITS

All kit component SKUs
are for reference only

- Complete kit includes equalizers and attaching hardware to mount your axle to the chassis

Tandem Axle Kit - #128877

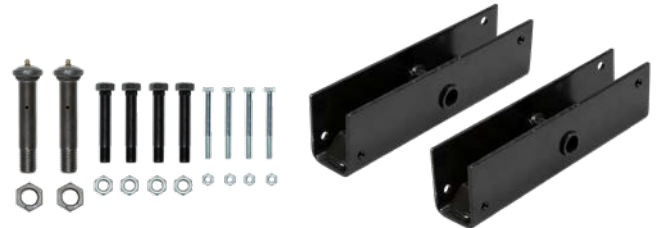

- Compatible with 3,500 to 8,000-lb. axles
- Use with 2" wide slipper springs
- Axle spacing: 33-1/2"
- Industry standard #: EQ-13-4

Part #	Description	Qty
127771	Equalizer	2
126782	Bolt - 9/16"-18 x 3-1/2"	2
127846	Bolt - 7/8"-9 x 4-5/8"	2
127828	Bolt - 5/16"-18 x 3-1/4"	4
125801	Nut - 9/16"-18	2
127802	Nut - 7/8"-9	2
127799	Nut - 5/16"-18	4

Tandem Axle Kit - #165268

- Compatible with 3,500 to 8,000-lb. axles
- Use with 2" wide slipper springs
- Axle spacing: 36"
- Industry standard #: EQ-13-44

Part #	Description	Qty
165270	Equalizer	2
126782	Bolt - 9/16"-18 x 3-1/2"	4
127846	Bolt - 7/8"-9 x 4-5/8"	2
127828	Bolt - 5/16"-18 x 3-1/4"	4
125801	Nut - 9/16"-18	4
127802	Nut - 7/8"-9	2
127799	Nut - 5/16"-18	4

Tandem Axle Kit - #184173

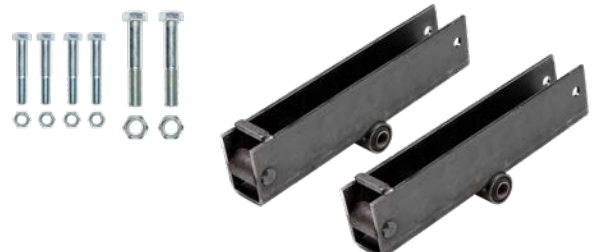

- Compatible with 10,000-lb. axles
- Use with 2-1/2" wide slipper springs
- Axle spacing: 42-1/4"

Part #	Description	Qty
182257	Equalizer	2
184138	Bolt - 1" - 8 x 6"	2
184137	Bolt - 3/4"-10 x 4-1/2"	2
178715	Nut - 1"-8	2
119094	Nut - 3/4" - 10	4

Tandem Axle Kit - #184175

- Compatible with 10,000-lb. axles
- Use with 2-1/2" wide slipper springs
- Axle spacing: 48-1/2"

Part #	Description	Qty
182269	Equalizer	6
184138	Bolt - 1"-8 x 6"	2

DOUBLE-EYE SUSPENSION KITS

All kit component SKUs are for reference only

- Complete kit includes equalizers and attaching hardware to mount your axle to the chassis

Single Axle Kit - #121101

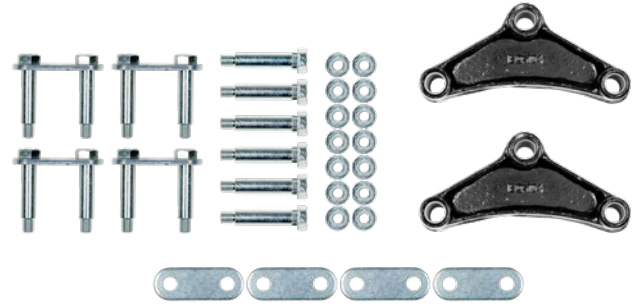

- Compatible with 2,200 - 8,000-lb. axles
- Use with 1-3/4" wide double-eye springs

Part #	Description	Qty
133485	Shackle assembly	2
122102	Shoulder bolt - 9/16" x 2-5/16"	2
133207	Shackle link - 3-1/8"	2
122103	Nut - 7/16"-20	6

Tandem Axle Kit - #121097

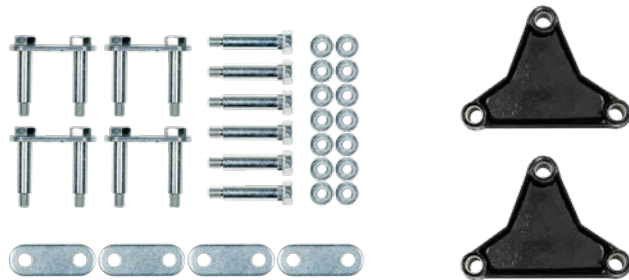

- Compatible with 2,200 - 8,000-lb. axles
- Use with 1-3/4" wide double-eye springs
- Axle spacing: 33"
- Industry standard #: EQ-104

Part #	Description	Qty
126460	Equalizer assembly	2
125675	Shackle link assembly	4
122102	Bolt - .438 - 20 x 2-7/8"	6

122103	Hex flange nut - 7/16"-20	22

Triple Kit - #132698

- Compatible with 2,200 - 8,000-lb. axles
- Use with 1-3/4" wide double-eye springs
- Axle spacing: 35"
- Industry standard #: EQ-1 & 13-126

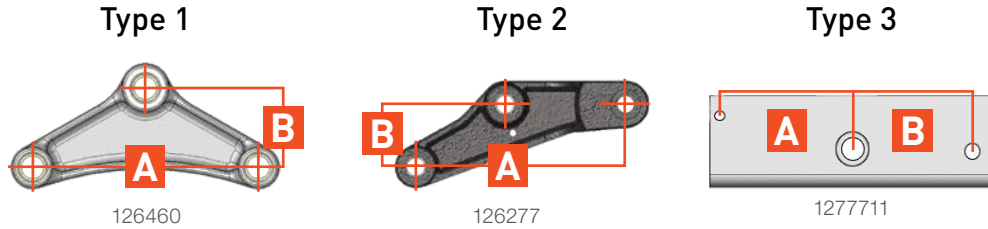

Part #	Description	Qty
122106	Equalizer assembly	2
181823	Equalizer	2
125675	Shackle link assembly - 2-1/4"	6
122102	Shoulder bolt - 9/16" x 2-5/16"	10
122487	Shackle link - 2-1/4"	6
122103	Hex flange nut - 7/16"-20	22

EQUALIZERS

- Connects the springs on tandem or triple-axle trailers
- Transfers load and impact from one axle to another by permitting movement between the axles
- Pre-installed bushings maintain a well-functioning system and ensure proper sizing for suspension bolts
- Includes one equalizer in a durable brown box

How to measure different equalizer styles

Slipper leaf spring equalizers

Brown Box #	Industry Number*	Number of Axles	Spring Width	Axle Spacing	Type	A (Width)	B (Height)
1277711	EQ-1304	2 / 3	2"	33-1/2"	3	5-1/8"	4-5/8"
182257	--	2 / 3	2-1/2"	42-1/4"	3	6-7/8"	6-11/16"
182269	--	2 / 3	2-1/2"	48-1/2"	3	9-9/16"	9-9/16"
299015	--	2 / 3	3"	42-1/4"	3	7"	7-1/8"
299017	--	2 / 3	3"	48-1/2"	3	10-3/4"	10-1/4"

U-BOLT & NUT KITS

- Zinc-plated finish on U-bolts resists rust and corrosion
- Durable steel construction for long-lasting performance
- Features fine threads for superior holding strength
- Includes two U-bolts and four nuts

SLIPPER ROLLER SUSPENSION

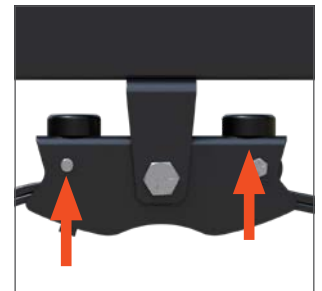

- Maintenance-free slipper spring suspension technology eliminates component wear
- Axles remain parallel while negotiating uneven roads and side-to-side weight differences
- Reduced bump steer and tire wear
- Improved fuel efficiency
- Reduced operating noise
- Quick installation due to reduced bolted joints and no shackle link or hanger bolt assembly
- 2" wide slipper spring reduces stress on the system by 15 to 20% for improved durability and safety
- Available in a wider stance to improve towing stability
- Self-adjusting brakes for improved stopping ability and reduced maintenance
- Includes black powder-coated springs, axle tube, and tie-plates, along with dichromate hardware for superior corrosion resistance
- Valcrum universal aluminum hub caps are available for 6K, 7K, and 8K axles capacities only

Valcrum universal aluminum hub caps offer a superior upgrade over their plastic counterparts. The aluminum alloy provides better heat dissipation and thermal management. Each cap also features a fill / drain grease port, a magnetic vent plug, and machined threads

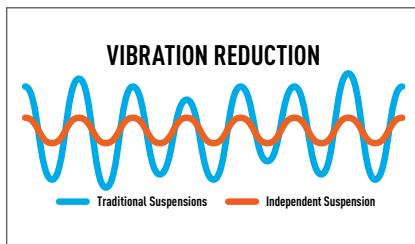

Rubber bushed spring eyes and equalizer to protect unit from vibration, also eliminates all maintenance and wear

Bump stops on equalizer to prevent over-rotation and high impact loads to frame

INDEPENDENT SUSPENSION ADVENTURE EDITION

- Independent, adaptive suspension with cushioned, road dampening technology
- Increased suspension travel elicits a reduced spring rate compared to other suspensions resulting in a smoother ride
- Axle-free design provides greater ground clearance for any terrain
- Additional clearance between suspension and tires
- Self-adjusting electric drum brakes minimize servicing
- Practical suspension design with a sub-frame that mounts to the chassis with six attaching fasteners
- Durable powder coat finish for enhanced corrosion resistance
- Toe and camber adjustment system for tire alignment and precise adjustment
- Elegant design for an enhanced aesthetic appeal
- Available in 3,500, 4,870, and 5,200-lb. capacities and straight or 4" drop spindle options
- Available in single and tandem configurations and with anti-lock brake system technology

Suspension system reduces rattling and vibration for a more comfortable ride

Gas shocks dampen spring oscillations for improved ride quality and vehicle handling

Coil spring with bump stops to prevent harsh 'bottoming out'

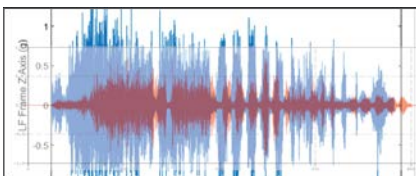

Available in single or tandem configurations

INDEPENDENT SUSPENSION TOURING EDITION

- Proprietary dampening and road isolation technology protects your investment from road shock and vibration
- Suspension system reduces rattling and vibration for a more comfortable ride
- Provides nearly two times more articulation compared to a leaf spring suspension
- Ideal suspension to combat everyday potholes, rough highways, and roads
- Improved design extends longevity compared to leaf springs
- Track bar design stabilizes the axles and suspension and reduces chassis movement during extreme turn situations
- Durable powder coat finish for enhanced corrosion resistance
- Weight capacities up to 5,200 lbs. (Touring) and 8,000 lbs. (Touring HD) per axle
- Available in single and tandem configurations and with anti-lock brake system technology

- Touring Coil Suspension
- Traditional Leaf Spring

Suspension system reduces rattling and vibration for a more comfortable ride

Robustly designed with 50% fewer fasteners means reduced need for service

Trailing arm style suspension with coil springs and shock absorbers

With anti-lock braking system

Without anti-lock braking system

ANTI-LOCK BRAKING SYSTEM

- Promotes exceptional towing safety and driver confidence
- Improves control on slippery roads and in emergency braking situations
- Integrates with trailer brakes to prevent trailer wheel lock-up
- Ready to connect to the OneControl® app and Compass Connect
- App provides digital odometer, system monitoring, and more
- Works with electromagnetic drum brakes (7-way wiring connector required)
- Fully compatible with or without OEM or aftermarket brake controllers
- Non-intrusive system will not interfere with trailer gain settings

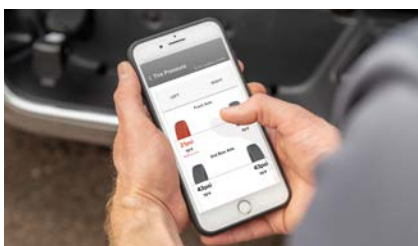

2021017577

Part #	Wheels	Axles	Includes
2021017577	2 to 6	1 to 3	Anti-lock brake system and all required wiring harnesses for installation

TIRE LINC® AUTO TRAILER TEMPERATURE & PRESSURE MONITORING SYSTEM

- Actively monitors tire pressure and temperature in real-time
- Provides push notifications when hazardous conditions occur to prevent blowouts
- Connects wirelessly through your smartphone via Bluetooth® connection
- Includes rechargeable lithium-powered battery for up to 60 hours of active use
- Automatically enters low-power mode when not in motion to preserve battery
- Easy, do-it-yourself installation (can be permanently wired with provided splice-in wiring harness)
- IP67-rated construction is dustproof and waterproof up to one meter
- Portable design allows use with multiple trailers
- Sensors come with replaceable CR1632 batteries

Tire Linc technology integrates with the CURT OneControl® app and provides real-time notifications to your smartphone

Monitors up to 20 tires simultaneously, making it the ideal solution for travel trailers, boat trailers, and agricultural or utility trailers

Advanced repeater technology ensures your smartphone always has current information with a strong connection while on the road

Retail Box #	Description	Wheels	Includes
57009	Tire Linc kit	Up to 4	Repeater, four sensors, installation hardware
57011	Tire Linc sensors	Adds 2	Two sensors

TECHNICAL INSTITUTE TRAINING

Learn with us

With the Lippert Technical Institute, it's easy to get the training you and your employees need to successfully sell Lippert products. Contact us today to sign up for in-person or online courses!

WHO WE TRAIN

Technicians

- Gain a better understanding of how components come together and their functions
- Receive information on new products or updates on existing products
- Get hands-on experience on mock-ups that we build in house

Sales

- Learn the features and benefits of Lippert products
- Become familiarized with Lippert Now app for smart phones and how to use it to your advantage

Parts

- Learn about Lippert resources for parts identification
- Gain information on effective ways to communicate with technicians regarding replacement part kits
- Discover the advantages of using the Lippert Dealer Portal

Warranty

- Learn about claims processing and processes Lippert NOW app and website
- Receive training on how to operate the interactive flat rate chart

TYPES OF TRAINING

Lippert technician service schools

- Three-day event covering multiple components
- Classes are completed with PowerPoint, hands-on instruction and troubleshooting
- Other suppliers offer classes at our schools
- This is our most extensive training and is hosted at our Lippert Technical Institute in Mishawaka, IN
- All technicians are welcome
- Limited space available, be sure to register

Lippert regional training seminars

- One-day to three-day events covering multiple components
- These courses are seminar based and will have parts and pieces for demonstration
- Not full hands-on training as with our technician service schools
- Offered throughout the country multiple times a year

Online webinars

- New courses released to our library monthly
- Create an account at lippert.learnupon.com
- Courses can be accessed at any time
- Complete immediately or leave and come back at your convenience

SCHEDULE YOUR TRAINING
