DPBSTB-14

I-BEAM FRAME SPLIT-DECK TILT

Introducing the all-new DPBSTB I-Beam Frame Split-Deck Tilt Trailer from Summit Trailers. Built for demanding applications, it features a heavy-duty 8" I-beam frame and tongue for exceptional strength and durability. Designed to haul a wide range of compact equipment and vehicles, the 16' tilt deck allows for fast, effortless loading. Premium features—including an oversized integrated tongue storage box, tilt-speed adjustment valve, and steel cylinder reservoir—are paired with the superior craftsmanship Summit is known for, resulting in a trailer that stands apart from the competition.
